ReproNET Symposium 2026

14/10/2026

From 12 to 13 October 2026, our group had the opportunity to take part in the 2nd ReproNET Symposium 2026, held once again at Nynäs Havsbad, Sweden, in a spectacular coastal setting. During the symposium, we had the opportunity to present our group’s work through four oral presentations, accompanied by their corresponding posters. Furthermore, Dr Signe Altmäe brought the event to a close with an excellent talk on the role of the microbiome in male fertility.
