8º von Baer Seminar in Tartu

13/09/2026

On 11 and 12 September 2026, we took part in the 8th von Baer Seminar, held in Tartu, Estonia.

The seminar took place in a historic 19th-century castle set in stunning natural surroundings. Alatskivi Castle is regarded as one of Estonia’s most iconic historic buildings.

It was an excellent opportunity to gain new insights, share our work and forge links with other professionals and researchers.
