7º von Baer Seminar in Tartu

15/09/2025

We took part in the 7th von Baer Seminar, held from 11 to 13 September 2025 in Tartu, Estonia. An event of outstanding scientific excellence that brought together leading figures in the field of human reproduction! This seminar is organised every two years in honour of the German-Russian-Estonian researcher Karl Ernst von Baer, who discovered the oocyte in mammals 198 years ago (in 1827). A special commemorative edition will take place in 2027.
