The Repro-UGR group is taking part in the 41st ESHRE Annual Congress!

03/07/2025

From 30 June to 2 July, Paris hosted the 41st ESHRE Annual Congress, an event at which we had the privilege of taking part by presenting three posters.

We are very proud of the work carried out by our team and grateful for the opportunity to present our findings to the scientific community in the field of reproduction. The congress provided a valuable forum for the exchange of ideas and scientific discussion, as well as offering an excellent opportunity to forge new professional relationships.

We thoroughly enjoyed our trip to Paris, a city brimming with inspiration and charm.
