We took part in a very moving event, the ‘1st Endometriosis Conference’

18/03/2024

We took part in a very moving event, the ‘1st Endometriosis Conference’, organised by the Virgen de las Nieves University Hospital and ADAEC. Dr Inma Prieto presented our study involving 1,000 women with endometriosis and a control group. It was a great opportunity to present our research to patients and doctors, raise awareness of this condition and, in doing so, open up new avenues of research into it.
